Report of OSCE for 2017 -B batch

Department of Medicine has conducted Practical PCT of Batch B of 2017 ABCD batch by OSCE method on 27/10/21. Ten Stations were prepared in such a manner that all 3 i. e cognitive, psychomotor and communications skills could be examined. First 3 stations were patient stations related to history taking, general examination and systemic per abdominal examination. Checklists were prepared and residents were appointed as observers. 4th - 6th stations were photo stations were photographs of typical and common physical findings were kept and students were expected to identify abnormality and answer questions related to those physical findings. 7th and 8th stations were investigation stations were an ECG and Xray were kept for identifications and answer related questions. 9th station was station on communication skills. Students were given the task of explaining about importance medical nutrition therapy and exercise to diabetic patient. Tenth station was Teacher Evaluation Station, in which senior faculties from department took viva based on patient stations. In this exam we also took help of standardized patients. On history station a nursing student and an intern were given the job of patient. Overall all the three domains were evaluated during this exam. Dr. Tanuja Manohar was the coordinator of OSCE examination.

Privileged Communication:

i] Privileged communication is the statement made bonafide, upon any subject matter by the doctor to a authority for the protection of interest of a community or the state.

Eg:-

ii] Infectious disease :-

Doctor can leak out / break the privilege if a patient continues to follow / practice his regular job despite the prescription of bed rest.

iii] Vulnerable dis & if Cook infected with typhoid continues his job then doctor can leak out the necessary to the related individuals.

iii] Vulnerable disease

Eg:- If a patient is infected with syphilis then in such case doctor can tell the patient's spouse / guardian about ~~its~~ his/her health.
 ✓ the patient's

iv] Notifiable disease :-

Doctor can / must tell the concerned authority about the patient's health of the patient suffering from any notifiable disease.

Eg:- AIDS, Covid-19, etc.

v] Servant and Employee :-

Despite of ~~After~~ suggesting bedrest by the doctor to his patient; ~~he~~ he continues to practice his

Theme based MCQ test for residents

Department of General Medicine had organised a Theme based MCQ test for residents. 19th April is celebrated globally as World Liver Day and aim is to create awareness about Liver disorders. As a part of celebration of World Liver Day we conducted MCQ test based on liver disorders using Google form. 50 MCQ questions were prepared and were given to the students during PG activity. Those who were on emergency duty also could able to appear for test as link for test was shared on Departmental Whats App group. 36 students appeared for this MCQ test. Successful candidates were felicitated. This was an attempt to inculcate in them self-directed learning.
